

## DAMPA Grating LTX WS

Gratings provides the visual effect of a concealed ceiling, and is designed with elegant narrow profiles oriented in straight lines. The ceiling construction is leaving a high open area, and is frequently prescribed in areas with high ventilation demands or with special fire protection solutions.

Gratings WS systems are easy to open, and thus facilitating service and maintenance.

The Gratings are made of profiles 8 mm wide, and 40 mm high.

Standard element is 600 x 1200 mm, other dimensions on request.
